Built-in IR detector: For a happy pet's meal time, the IR detector will have the right angle to prevent pet food from clogging or overflowing. Be aware that the size of dry food should not exceed 1 cm3. Two ways power supply. If you don't want to use a power adapter, you can change to install the battery (new 3D cells, base battery, Not included). In the event of a power outage, battery backup power allows your timed meal to continue. Great Customizable Feeders for Dogs, Cats and Small Animals of All Sizes.Provide an exciting life for your pet with our professional service center24 hours, full refund in 30 days, 12-month warranty, and 24/7/365 technical support. Specifications: Material: ABS high quality, Eco-friendly input: AC 100 to 240 V Output: 5 V / 0.2 A Capacity: 2.5L, Meal Time:4 meals (breakfast, launch, dinner and 4th meal), Portion Control:1-39 portion control, Sound recording: 10 seconds Power Supply: battery or adapter; Infrared Induction: To prevent food spills or jams; Programmable Timer: Feed your pet at scheduled times and keep your pet healthy, Jason Williamson: Absolutely loved this!! I have a fat cat and this works very well to measure her food and know she is only fed twice a day. We fed him every time he meowed this food allowing us to manually press a button and feed him a little before the next meal. It's easy to organize and adjust the time and food. It has four meal schedules and everything is labeled great! Like that it comes with plug ins or running on the battery. Stefanie R.: I have a very persistent cat and chihuahua who likes to steal cat food. Often I wonder if my cat gets food during the day because dogs prefer the food. Sometimes I work overtime too. I leave food but am usually ed by dogs in the morning. This feeder has some really cool features. You can adjust the portion size and the way my cat (and dog) dog) You will need more than what their single serving size is. Portion sizes can definitely be increased however I can see where it is helpful to give the option to go up to 39 portions. I started with 8 servings and then up to 10. I like that you can take out several times a day, up to a total of 4 times. The sound recording is a little weird, but hey I like my creatures, so I tried it and it's a funny feature. My cat looked at me like I was crazy, but he loved the food coming out of it and had no problem using it. It's a cute design and easy to use and put together so I would definitely recommend it to my cat-loving friends. My cat started eating from it immediately, so making them accept it wasn't a problem. Whether this is an automatic feeder for you depends on your budget and the features you want. Briggs: This product is easy to set up and use. Hours elapsed at military time you can arrange it for breakfast, lunch, dinner and snacks. The voice recorder is a nice addition to the kitty! I come running all the time. They have many types of services to suit the size of any pet. I love it! I was very happy to find this automatic pet feeder. It is my children's job to make sure the dog has food in its bowl. So this makes it so much better all they have to do is fill the feeder once a day. Saved me from having it take discarded dog food from losing a dog bowl several or more times a day.. It works fine! Wopet conclusive automatic feeder is great! The recording feature is cool because you can call your pet with it when removing food. It is a very aesthetically attractive pet feeder. This would be great for anyone who travels a lot or even someone who works long hours or is unusual and doesn't want to make their pet eat at crazy hours. I tested it with cereal before pet food, and it was cute, my toddler was excited and I may have found another great use for it when not on vacation! For mothers whose little ones wake up before the sun demand Paula Marc We have just received this WOPET F03 Automatic Pet Food Dispenser and are excited to see how our 8-month-old kitten will react to it. So we introduced it to the feeder while completing this video recording. At first, we were worried that it might scare him. But, as you can see from the video he took it straight there and started eating. We couldn't be happier because Taz likes to wake us up between 4 and 5am to feed him! By adjusting the number of portions, from 1 to servings per meal (5g to 1 serving), this pet feeder allows you to give your pet a flexible amount of food up to 4 times a day. You only set the amount of food on the control panel and this feeder automatically emits the correct amount at the time you set it. Preparing a meal schedule is very easy. It is great that we can quickly customize the food to meet its growing needs. Fun features are the built-in voice recorder and speakers. This allows you to record your voice for 10 seconds and and for their food. Manual cat feeder automatic feeder super feeder. D30 pets drink fountains. Product 3l smart pet automatic feeder 6l smart pet automatic feeder 7l smart pet automatic feeder. Share it on FacebookTweet on Twitter All right. Can't wait to get into this affordable automatic cat feeder: Wopet F03 Pet Feeder. If you like Wopet and 7L is too expensive, then you might just do business with Wopet F03 Pet But, like so many in life, it will depend. On what? Well, I'm going to get to it as sort of through the various pros and cons of this surprising little automatic cat feeder. In fact, reader's digest version is that wopet F03 Pet Feeder is difficult, well made, and comes with a variety of features that you'll only find if you go up the market. And it's pretty easy to program. So this may be possible options for you and your cat. If you're not looking for volume—a big hopper and programming gazillion food at once. Wopet F03 Automatic Cat Feeder Infrared Food Detection 4 Meals per Day Portion Control at 1 Teaspoon to 2.5 cups Manual Override Sound Recording Capability So I'll take you through the features that come with the Wopet F03 Pet Feeder, and then give you a taste of what Amazon shoppers are saying about feeders. I'll get it done, as I always do, with some recommendations about other options, if the Wopet F03 Pet Feeder isn't right for you. If you're in a hurry and you just want to buy a Wopet F03 Pet Feeder, I get it. Like I've said before, I'm like that sometimes. Just go ahead and then click here and proceed to Amazon where you'll see a full list of products, customer reviews, and you'll be able to check out offers or promotions. Click here to check out the Wopet F03 Pet Feeder on Amazon The Wopet F03 Pet Feeder is a good choice for smaller dispensers. If you're looking for a larger capacity and an all-around great (and I mean my top choice) automatic cat feeder, be sure to check out my review of the PetSafe Healthy Pet Simply Feed Automatic Feeder. Key Features of Wopet F03 Pet Feeder Wow. Where to start? As I mentioned, Wopet F03 Pet Feeder has some great features. It's definitely a more affordable little sister to the company's flagship Wopet F01 7L. (Oh my God, you can keep 20 pounds of kibble in that hopper!) Wopet F03 Pet Feeder has quite a bit of capacity, but I still love this feeder. This is why several reasons why . . . Feeding options. You can program up to 4 meals a day. That's good. You can go up in price points and get more programming options and you can definitely get fewer feed options. This, like all things involving these feeders, is a good solid offer. Good range. So what about portion control on this? Pretty good. You see the smallest dish about 1 teaspoon (5 grams) and go up from there. You have up to 39 serving settings for each meal. The maximum amount of kibble you can store in a hopper is 2.5 cups. I would say the average adult cat will take 5-10 servings per meal. Wet food? Wakakak so this is the key. If you feed wet food to your fur baby, this will not work. The size of the food pellets to be accommodated ranges from 0.2-0.6 inches in diameter. Remember that. The dining tray is completely dishwasher safe and easy to clean. You can, of course, program meal times and, yes, there is manual waiver. You just press and hold the manual button for three seconds and out comes the kibble. And I'll throw this on: Wopet really nice website (scarcity in this market) which is worth a visit if you are thinking of buying a unit. Features Stand Out So now you have a basic idea of what Wopet F03 Pet Feeder can do. Let's dig a little deeper. What sets this little feeder apart? Well, it has some really nice touches for the price. This is it the feeder has a built-in voice recorder. It works like any other voice recorder on the market. Just tap and record yourself calling your cat to eat. It's a 10-second recording. It's a nice touch and that some people really want in their feeder. It comes with a USB adapter. Hooray! It's one of my pet peeing. So you can go with the battery (3D battery), you can plug it in. I really appreciate the company designing pet feeders with this option. It also comes with a built-in IR detector to keep kibbles from jamming. The IR detector will have the right angle to prevent food clogging or overflowing. Although the bear mentions that this feeder is actually designed for small kibbles. If your cat eats food with a larger kibble, this is not the right feeder for you. The control panel is quite easy and accessible. Some feeders are very well designed, you don't even need a manual. You'll want to read the manual with this feeder, but really not much for it in terms of food programming. Fortunately, the control panel will flash an alert when the battery is running low. You'll be surprised how many feeders don't include this vital feature. Good sadness! Who Should Buy Wopet F03 Pet Feeder Give a capacity 2.5 cup hopper, if you're going on holiday for a week and looking for options for that period, this may not be the right choice. Not that it won't work. Cat sitters can definitely recharge the hopper a few times as you go but in the show, there are better options, including Wopet 7l. Now, those other options are more expensive, which makes me who should seriously consider this solid and efficient feeder. For the cost of this feeder, you get quite a lot. So who should buy the Wopet F03 Pet Feeder? Budget conscious. It's a lot. You get substantial portion control, USB adapters, sound recordings, and well-made machines from leading companies. You don't get much capacity considering the hopper only holds 2.5 cups. (Don't mean to beat dead horses but I want to be clear about this.) In many cases, it's fine. And it's more than fine if you've got or will make your cat go on a diet. And the lid is completely safe, so your cat won't find a way to break into food. (These two annoying little ones are (1) the ridiculous cat design of the feeder (OK, I can live it) and the inability to know how much pet food is left in the hopper by coming out having to open the top). It's not a high-end product and you don't pay that price, either. For example, sound recordings are a bit shallow and sound cheap. But who cares? It's only a 10-second recording of call your cat. The engine's a little noisy. But so are many of the more expensive models. Do you understand what I'm saying? Bottom line The will not hesitate to recommend Wopet F03 Pet Feeder as a whole. Please don't take it from my qualifications. It's not a machine that dishes out Food. If that's what you're looking for, click here to see my sign-in options. If cats like large kibbles (greater than 1 cm or more), then kibbles will jam in the feeder. Or if you travel a lot. For that, there are better options. Otherwise, the Wopet F03 Pet Feeder is a great choice at a reasonable price. In fact, you get a lot of higher end features that make wopet F03 Pet Feeder a great choice. The Wopet F03 Pet Feeder Customer Reviews received pretty solid reviews Amazon.com. Overall, the feeder has a rating of 4.5 out of 5 stars and when I wrote this 166 customer review. In fact, it ranks among bestsellers on Amazon. Seventy-seven percent of the other 16% reviews were four-star ratings. That's very good. I don't think you have anything to worry about based on reviews on Amazon. Where to Buy Wopet F03 Pet Feeder And talk about Amazon, I almost always recommend buying stuff from Amazon and it's no different to the Wopet F03 Pet Feeder. Why? Because you can see all the feedback and reviews and you get superfast delivery, especially if you have a primary account. And Amazon really looks after you, customers, if there's a problem. So I highly recommend heading to Amazon to check out the Wopet F03 Pet Feeder. Click here to buy Wopet F03 Pet Feeder Other Recommendations Not sure Wopet F03 is right for you? If you are not sure, then you should definitely keep looking. Here are some favorites to help you get started. PetSafe Healthy Pets Simply Feed Automatic FeedersSureFlap SureFeed This is a great one. The feeder can serve up to 12 times a day, yes, you heard me right. And it's very easy to program. If you're still hesitant, this is my feeder go-to. It's the little one. But RFID technology is great. And it's not really able to filter out wet food. You want to keep your cat healthy, this is a good choice. Read the full review here.
